

HUDA INTERNATIONAL

Manufacturer of Auxiliaries for Textile, Leather, Paint, Water Treatment & Construction Chemicals

EXCELLANCE IN CHEMICAL SOLUTION

Engineering Chemistry for a Better Tomorrow

Manufacturer of auxiliaries for Textiles, Leather, Paint, Water Treatment and Construction Chemicals. Delivering Trusted and Industrial grade solutions tailored to Customers' requirements.

10+ Years in Services

500+ Client Served

Who we are.

We take immense pleasure in serving Textile, Leather and Construction Industries through a diversified range of auxiliaries since last 10 years. Our journey goes on to the level of trust bestowed upon us by our valued clientele, it has not only been resulting in the tremendous growth in the sales growth, but also in the increase of our footprint across the Pakistan. We take pride in building long-term relationships with our partners by offering not just products, but comprehensive chemical solutions tailored to their specific requirements. Whether serving the Textile, Leather, construction, Shoe or Water Treatment Industries, we strive to add values to every stage of the supply chain.

Our Mission:

- To be a catalyst for progress through chemistry, Backed by innovation, Driven by integrity, and Committed to excellence.
- Provide a dependable source for premium chemical products and industry expertise.
- Scale with a trusted chemical partners, offering R&D strength and Industrial expertise.
- Providing Quality Services and Global Business Solution.

Who we are.

We focus on customizing our products to meet up the specific requirements of our clients, ensuring that we not only maintain and enhance the quality features but also optimize the cost components. Every inquiry regarding the manufacturing of customized products is given by our utmost attention, as we strive to help you Achieve your Strategic Goal.

1. Textile Industry

- Acrylamide Base Anti-Crease
- Anti Migrating Agents
- Anti Shrink/Anti Crease Resin
- Antifoam
- Coating Binder
- De Oiler
- Detergents (APEO Free)
- Dispersing Agent for Polyester
- Dye Carrier
- Enzyme (Bio Polish, Peroxide Killer)
- Fatty Acid Softener (Cationic)
- Fatty Acid Softener (Non-ionic)
- Fixing Agent (Formaldehyde Base)
- Fixing Agent (Formaldehyde Free)
- Foam Booster
- Hard Acrylic
- Leveling Agents (Polyester & Cotton)
- Melamine Resin
- Optical Brightener
- PE Base Anti Crease Resin
- Pigment Black
- Polyethylene Emulsion
- Printing Binder
- PVA Emulsions
- Reduction Cleaner
- Sequester
- Silicon Emulsion (Hydrophilic)
- Silicon Emulsion (Hydrophobic)
- Sizing Agent
- Soft Binder
- Table Glue for Table Printing
- Finishing Resin
- Sizing Agent
- UF Resin
- Weight Gainer
- Wetting Agents (APEO Free)
- Hit SLU
- Buffer Agent
- De-Sizer

2. Leather

- Acrylic Binder
- Degreasing Agents
- Enzyme
- Micro Binder
- Polymer

3. Construction Chemicals

- Admixture Super Plasticiser
- PCE (Poly Heat)
- Sealant 550 A&B
- Sealant 501
- Grouts 928
- Curing Compound
- Cement Additive
- Top Flooring Powder
- Floor Hardener
- Heat Proofing
- Acrylic Weather Sheet
- Tile Grout
- Plug Powder
- Plug Liquid
- Water Proofing Cement Tissues
- Polycarboxylate
- Admixture (3rd gen)
- Cement Tissues Grout 8000 PSI
- Antifreeze
- Under Water Filler
- Corrosion Inhibitor
- Rust Remover

4. Water Treatment Chemicals

- Isothiazolinone 14%
- Ter Polymer 3100
- HEDP 60%
- Poly Acrylic Acid (PAA)
- BTA
- Sodium Sulphite
- Sodium Borate
- Caustic Flakes
- Cyclohexylamine (CHA)
- Morpholine
- Diethanolamine (DEA)
- HPMA 50%
- Copper Sulphate
- Mono Sodium Phosphate (MSP)
- Nitric Acid
- Sodium Hexametaphosphate (SHMP)
- Sodium Metabisulphite
- Trisodium Phosphate

5. Shoe Industry

- Carbon Black
- Dimethyl formamide (DMF)
- Other Solvents
- Butyl Acetate
- Dioctyl Phthalate (DOP)
- Hardener
- Methylene Chloride (MC)

6. Paint Industry

- Hard Acrylic
- PVA Emulsions
- Copolymer PVA

7. Raw Material

- 2 Ethylhexanol
- 2 Ethylhexyl Acrylate
- Acetic Acid
- Acrylamide
- Acrylic Acid
- Acrylonitrile
- Butyl Acetate
- Butyl Acrylate
- Butyl Di Glycol
- Castor Oil
- Caustic Soda
- Chloroform
- Citric Acid
- Cyclohexane
- Dimethylformamide (DMF)
- Dioctyl Phthalate (DOP)
- Ethyl Acrylate
- Glycerine
- Hydrogen Peroxide
- Hypochlorite
- Isopropyl Alcohol (IPA)
- Kerosene Oil
- Magnesium Chloride
- Methylene Chloride (MC)
- Monoethylene Glycol (MEG)
- Nonylphenol-30 (NP-30)
- Polyacrylamide
- Sulphonic Acid
- SLES (Shampoo Base)
- Sodium Metabisulphite
- Solvent Naphtha
- Triethanolamine (TEA)
